## FRIONETT® ACTIV' ONE SHOT

Non-contractual photo  
150ml aerosol

### INTRODUCTION

**Frionett® Activ' One Shot** purifies the air and disinfects surfaces against contained viruses.

**Frionett® Activ' One Shot** is a fragrance-free disinfectant solution in a 150ml aerosol can.

Press the nozzle and the product will completely diffuse automatically.

### APPLICATION

**Frionett® Activ' One Shot** is designed for the treatment of air-conditioning installations and the purification of air in enclosed spaces.

It allows the disinfection of ventilation and air conditioning ducts, as well as the purification of the atmosphere in rooms.

**Frionett® Activ' One Shot** is recommended for preventative and curative use.

### INSTRUCTIONS FOR USE

- Keep the air conditioning or ventilation on
- Set it cold with ventilation at minimum
- Press the aerosol nozzle and position in the centre of the room
- Leave and close the room (including windows, internal doors and cupboards)
- Leave for 15 to 30 minutes
- Ventilate for at least 1 hour before re-entering the room

One can will treat up to 90 m<sup>3</sup> - Do not exceed dose.

### DISINFECTING ACTIONS

*Time and temperature of application: refer to the standards.*
